We are pleased to offer you a digital Photo CD. The purchase of the Photo CD is completely optional. However, in our honest opinion, there are no greater pageant teaching tools available than the photos and videos of your actual competition. Keep in mind that there are no scores available. Not to mention, the sentimental value is priceless. Photos are often among the most treasured possessions. Time stands still for no one and memories fade. Photos are an excellent way to reflect and share your memories with the special people in your life.

The Photo CD will include photos taken on-stage of you in each phase of competition as well as other photos.....
